At the end of Samuel's time as Israel's prophet, the people clamored for a king. They wanted to be like the neighboring nations, with a king to go before them into battle. Though Samuel warned Israel of all that a king would do, they shouted louder for one to rule over them. Thus began the time of the kings, when God showed Israel (and us) why we shouldn't always get what we wish for. God alone is to be our King of Kings.
