

CCB has a new feature called TWEXT. It is designed to send out tweets to twitter accounts or text messages to cell phones. Currently, Autumn Ridge Church does not have a Twitter account, so the tweet option is not available. However, if you would like to receive text messages, please update your profile in CCB. Instructions are listed below. Students, please check with your parents before updating your profile. We do not want parents to receive a shocking cell phone bill if you do not have unlimited text messaging.

Instructions for setting up your profile to receive cell phone text messages from CCB:

Log into your CCB account at <http://autumnridgechurch.org/ccb.html>. If you are not sure of your login or password, please email TJ Schultz for assistance at TJ@aridge.org. Once in your record, click on *my settings* which is located at the top of your homepage. Then click on *Communication Settings*. In the right column, select your cell phone carrier and enter your cell phone number with area code. On this page you will also see a list of all of the groups that you are a member of. Place a check next to each group that you would like to receive text messages from. If you would like all of your future groups to have texting capability, you can update your future group default to “*send to me*” in the text messages column toward the bottom of the page. Don’t forget to click on *save settings* which is also located at the bottom of the page. Now you are all set to receive text messages from CCB.

Instructions for sending cell phone text messages from CCB:

There is not yet a way to send a text message to a specific individual. This feature is designed to send out an announcement blast to a group of individuals. So to send a message to the members within one of your groups, you will need to first select a group. The groups that you are a member of are listed in the right column on your home page. Once you select the group, you will see the option to click on the *send a twext* link which is located under the *Actions* section on the right hand side of the group’s overview page. Currently, the recipient will not be able to reply to the text message.
