

Our message today is by Pastor Dan Farm
Home for the Holidays

There are few words in the English language that are as reminiscent or as powerful as just that one little word “home.” It can fill your heart. It can make you smile. It can make you cry. It doesn’t matter how old you are, how independent you may be, how much you have achieved, that one little word touches the absolute deepest place in the human heart – home.

The Bible has a lot to say about home and our longing for it. So today we are going to talk about why we long for home so much. What is it about this word that touches us so deeply?

NOTES
